PROFILE SUMMARY

Data Analyst & Developer with a strong foundation in data science and full-stack development. Skilled in leveraging Python, SQL, and advanced visualization tools to deliver actionable insights and scalable applications. Experienced in building AI-driven dashboards, automation tools, and web solutions that improve decision-making and operational efficiency

SKILLS

- Programming & Development: Python, R, Java, Django, Flutter, LaTeX
- Data & Analytics: SQL, Excel, Tableau, Alteryx, PySpark, SAS
- Machine Learning: Regression, Classification, Model Development
- Databases: MySQL, MongoDB

PROJECTS

- Power Consumption Analysis (Tableau). Designed interactive dashboards analyzing energy usage trends across Indian states, improving visibility into consumption patterns for large datasets.
- Car Service Management System (Django). Built a full-stack web application enabling customers to track service history and locate nearby service centers in real time. Reduced manual record-keeping for providers and improved customer engagement

EDUCATION

- B.Voc in Data Science – Calicut University, St. Thomas College, Thrissur (2023 – Present)
- Higher Secondary (Computer Science) – GHSS Kizhakkenchery (2021 – 2023)

CERTIFICATIONS

- Google Ads Certification – Google
- Python Full Stack Developer – [Institute/Platform, if available]
- Emerging Trends in Data Science and Cloud Computing – [Institution]
- Data Analysis with Python – [Institution]
- Alteryx Machine Learning Fundamentals – Alteryx
